

IDBLUE Announces Agreement with A. Harvey and Company Ltd.

May 8th, 2009 - IDBLUE has signed an agreement with A. Harvey and Co Ltd., to oversee the development, delivery, and support of an RFID application focusing on offshore logistics for container shipping and receiving for their offshore support operations. The project will be delivered across three phases: Phases I and II of the project see the development and migration of A. Harvey's current container tracking application, while Phase III delivers an RFID software-readiness and a container tracking deployment. The RFID solution will deliver improved tracking and visibility for locating and monitoring containers at the marine base and in transit to and from the offshore.

A. Harvey and Co Ltd. is a leading supplier of logistic support services to the Canadian east coast offshore oil and gas and marine industries. The A. Harvey Marine Base is situated on the harbour front in St. John's Newfoundland, and is the closest service point to the Grand Banks, Hibernia, White Rose, and Terra Nova oil fields. The Base is ISO 9001:2000 registered and has actively serviced the oil and gas offshore industry for over 30 years.
